Options for Streamlined Permitting of New and Modified True Minor O&NG Sources.docx

Since you'll be out next week, do you have time to just look at what I wrote up for the options brainstormed thus far? I kind of took them further than we discussed to try to make sense of my notes and provide true distinct options. I can work on condensing the writeup later, just want to make sure I'm on the right track for viable options.

Thanks,

Claudia
